Location: Anand, Gujarat

Professional Summary

Information Technology student at MBIT, Anand, with 9.63 CGPA specializing in MERN stack development. Experienced in building full-stack applications with React.js, Node.js, MongoDB, Cloud deployment, RESTful APIs, and integrating basic AI/ML features. Seeking placement opportunities to leverage technical skills in building scalable web applications and to contribute as a Software Developer.

Education

CVM University - MBIT

August 2023 – May 2027

Bachelor of Technology in Information Technology

CGPA: 9.63 (up to 5th Sem); 1st Rank (Sem 5), 2nd Rank (Sem 3), 3rd Rank (Sem 1 & 4)

V.J. Patel Higher Secondary School, Anand | GSEB (Science Stream) | 2023

Percentage: 81.85%

Technical Skills

Programming Languages: Java, Python, C, SQL

Frontend Development: React.js, HTML5, CSS3, EJS, JavaScript

Backend Development: Node.js, Java, Express.js, RESTful APIs

Database Technologies: MySQL, MongoDB

Computer Science Fundamentals: Operating Systems, Computer Networks, Database Management Systems

Artificial Intelligence: Machine Learning, Neural Networks, Data Analysis

Tools & Technologies: Git, GitHub, Render, Cloudinary, Streamlit Cloud

Professional Skills: Problem-Solving, Teamwork

Libraries & Frameworks: Scikit-learn, Pandas, NumPy, PyTorch, TensorFlow, Hugging Face, Transformers, Streamlit, Matplotlib

Projects

Web Development

1. Maa Creation - Photography Studio Website

Live: <https://mahakali-studio.onrender.com>

Developed full-stack professional photography studio website for business with dynamic portfolio gallery and video reels showcase. Implemented cloud-based media management using Cloudinary for optimized image and video delivery, reducing load time by 40%. Built responsive contact form with server-side email integration using Nodemailer for automated client inquiry handling.

Tech Stack: Node.js, Express.js, EJS, Cloudinary, Nodemailer, CSS

2. Local Medicine Availability Tracker

Developed a full stack web application to help users find nearby pharmacies with available medicines in real-time. Implemented role-based authentication using JWT and built features like medicine search, location-based filtering, and pharmacy inventory management. Designed a responsive user interface and integrated backend APIs with MongoDB for efficient data handling.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, JavaScript

Machine Learning

3. MindSense – AI Powered Mental Health Detection System

Live: <https://mindsense.streamlit.app>

Developed an AI-powered mental health detection system using a fine-tuned BERT transformer model to classify user text into multiple mental health categories such as depression, anxiety, stress, PTSD, bipolar disorder, and personality disorder. Implemented NLP preprocessing, class imbalance handling, and explainable AI using SHAP for transparent predictions. Built and deployed an interactive Streamlit web application for real-time analysis and prediction.

Tech Stack: Python, PyTorch, Hugging Face, BERT, Streamlit, NLP, SHAP, Scikit-learn, Pandas

4. VeriLang – Vernacular Misinformation Detection System

Live: <https://verilang.streamlit.app>

Developed a multilingual fake news detection system for identifying misinformation in regional Indian languages. Fine-tuned Google MuRIL transformer model for multilingual text classification. Worked with Hindi, Gujarati, Marathi, and Telugu datasets for misinformation analysis. Built an interactive Streamlit application for real-time misinformation detection. Achieved strong multilingual classification performance using transformer-based NLP techniques.

Tech Stack: Python, Streamlit, Hugging Face, MuRIL, NLP, Scikit-learn, Pandas, Machine Learning

Certifications and Achievements

- Academic Excellence Awards – 1st Rank (Sem 5), 2nd Rank (Sem 3), 3rd Rank (Sem 1 & 4)
- Web Development Workshop – Hands-on frontend workshop at MBIT
- Hackathon Participation – CVM University & Smart India Hackathon (SIH)
- Participant – Gyanotsav 2025 and 26, CVM University Fest
- Global E2E Software Development Track - Course

Interests & Hobbies

Participating in various hackathons, Building tech projects and exploring new ideas, Reading, Drawing, Sports

Experience & Activities

- **Coordinator** – MBIT Astronomy Club: Participated in astronomy and science awareness activities & designing posts
- **Coordinator** – MBIT Social Media Designing Team
